# GREEN CITY

Moscow ranks among the greenest cities in the world, with over half of its territory covered by parks, forests, and protected natural areas. Nature here is not a backdrop but an essential part of urban life — refined, carefully preserved, and seamlessly integrated into the city's rhythm. Tree-lined boulevards, landscaped gardens, tranquil riverbanks, and full-grown forests create a setting where elegance meets serenity. Moscow offers a rare blend of metropolitan sophistication and natural beauty.
